Independent Certification of the Green Bean Buddy Formula

American Academy of Entomological Sciences (AAES) · Certification letter dated February 26, 2014

What the certification confirms

- The formula's ingredients qualify as exempt under FIFRA 25(b), the EPA's minimum-risk pesticide category.
- The formula was observed to be effective against bed bugs (*Cimex lectularius*), ants, millipedes, carpet beetles, fleas and cockroaches when applied per label directions.
- Residual studies showed the formula remains effective for 30 days.
